Stainless Steel Compression Fittings 不锈钢卡套接头

Features: 性能

Stainless steel compression fittings line. Suitable for all those applications where brass nickel-plated and metal fittings are banned, the new AISI 316L fitting is conceived to withstand corrosive environments (substances), to channel aggressive fluids and to be used in the food and chemical industries. The materials ensure Anti-Corrosion highly, all of them are made from SUS316L except the seal ring, FKM is used as the seal ring, which can ensure Anti-Corrosion and acid resistant, also can be used in high temperature.

Specification : 详述

Recommanded Tubings: Copper and alluminium tubes. Nylon, PTFE etc.

Working Pressure Range: 0 - 6.0 Mpa

Temperature Range: -40℃~140℃

Applications: Pneumatics, Food Industry, Chemical, Medical and Pharmaceutical Industry

Material: 316 or 304 stainless steel

Two Ferrule Stainless Steel Compression Fittings 两片式高压不锈钢卡套接头

two ferrule compression fittings, Tube Fittings are designed for leak-free connections in process instrumentation and industrial applications. Available in a wide range of materials, they are compliant to NORSOK M-650 and EC79 certified.
